

I am opposed to your telemarketing law as it is. Indiana has a law that has stopped the calls to our home. Your law is not strick enough. We do not like to be bothered by these people calling at all hours of the night and day. They have nothing to offer us. If we want to buy something we decide who to call. The majority of these people are dishonest and pray on the elderly . I also don't like the fact that they buy my name and phone number from other businesses.
